Art Unit: 3711

This application is in condition for allowance except for the following formal matters:

In claims 2 and 3, line 2, "buckled" should be replaced with --buckle-- to correct a minor grammatical error.

Claim 5 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claim 5 adds no further limitations to claim 1.

In claims 6-8, the terms "combinable body" and "combinable blanket" are not commonly known terms of art and need to be explained in the specification. From the drawings and context of the claim language it has been determined that these elements are merely cloth fasteners.

A substitute specification in proper idiomatic English and in compliance with 37 CFR 1.52(a) and (b) is required. The substitute specification filed must be accompanied by a statement that it contains no new matter.

In the drawings, the figures disclosed as prior art need to be labeled as such.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

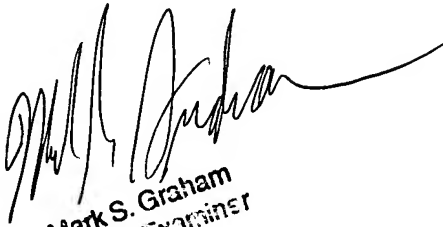

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Yoon, Nozato, Petras, Stasiuk, Macaluso, Ivanovich et al., Cho, and Warehime have been cited for interest because they disclose similar devices.
